

The Board of Managers of the Infants Summer Hospital desire to express their sorrow in the great loss by the death of Doctor Edward M. Moore.

For many years before the organization of the Hospital in 1887, Dr. Moore realized the benefit that infants would derive from the fresh air of the lake, under favorable conditions of attendance and nursing.

With his advice and assistance, the Hospital work was begun and continued.

He always had faith that the citizens of Rochester would encourage and support the effort to relieve the little ones in their sickness; and his desire was that the scope of the work should include all that needed such assistance.

His charity was broad and deep, and the Infants Hospital is another monument of his public spirit, his desire to add to human happiness, and his sympathy with all in distress.

We will always hold him in grateful remembrance and sincerest regard as our oldest and best friend.

The Secretary is requested to send a copy of the above record to his family, and

Express to them the sympathy of the members of the Board in their affliction

The following is a list of the Trustees elected for the year 1902:

Mitch, E. G.

Bausch, Henry

Moore, E. M.

Hamilton, A. S.
