

Family Finding Training

Hillside Children's Center

ABOUT THE SERVICE

Family Finding Core Curriculum Training

This comprehensive training program teaches staff how to implement the Family Finding model. The training can be delivered in one of two ways:

Learn-By-Doing Training: this 4 day training is spread over 3 months to incorporate a learn by-doing methodology; coaching is provided for an additional 3 months as trainees continue to implement the model with the selected youth and family.

Immersion Training: this 3 day back-to-back training provides the Family Finding Core Curriculum Training without the learning-by-doing component.

Family Finding Comprehensive Overview

This two-day training provides a comprehensive overview of the model and its six steps and examines how it differs from traditional approaches.

Coaching and Consultation

Coaching for Family Finders and supervisors is available with trained coaches at critical intervals during and after the training process.

Customized Trainings

Custom Trainings can be developed to meet the needs of your staff and your agency as booster sessions. These trainings can vary in length and content.

Train-the-Trainer

Hillside Family Finding Train-the-Trainer prepares and certifies your staff to provide training within your agency, using the Hillside Family Finding Core Curriculum.
